Submission Checklist for Streamlined Approval Application

- 1. This checklist must be the first page of a Nutrient Management Strategy (NMS) submitted for consideration under the Streamlined Approval Process
- 2. For the NMS to be considered for the Streamlined Approval Process, each of the criteria must be met.
- 3. If "Yes" cannot be answered for each criteria below the NMS will be placed into the Standard Review queue
- 4. If information is not clear or errors are found in the NMS, the submission may be placed into the Standard Review queue.

Submission must meet each of the criteria listed	Yes	Comments
The submission is prepared using the most current version of AgriSuite		
The most recent version of the <u>Overview of the Operation Template</u> is used (found on nutrientmanagement.ca)		
The Farmstead Sketch Checklist is completed and included with the		
submission (found on nutrientmanagement.ca)		
Verification of the property Roll Numbers is included		
• copy of the tax bill,		
 printout from AgMaps or other GIS, or 		
other acceptable method		
All Agrisuite Flags are explained		
 Information Flags - explained 		
 BMP flags – explained, and 		
Legislative STOP – should not be shown or clearly explained		
Previous/Existing Approvals (If applicable) have been reviewed and an		
explanation in the Overview of Operation about the previous approval		
has been provided.		
The farm unit is/will be generating 100 or fewer Nutrient Units (NU)		
Liquid and Solid Manures are stored separately on the farm unit		
There is greater than 240 days of manure storage on the farm unit		
All manure generated is applied on the farm unit		
For Poultry there is at least one tillable acre for nutrient application for		
each 0.8 NU generated (≤ 0.8NU/ac)		
Or		
For all other livestock there is at least one tillable acre for nutrient		
application for each 1 NU generated (≤1NU/ac)		

NMS Preparer Declaration: To the best of my knowledge, this NMS meets all the criteria of the Streamlined Approval Process.
